Summary

A final-year B.Tech (AI) student with hands-on experience in Python backend development, Generative AI, LLMs, RAG, and NLP. Currently building content generation pipelines such as image for a production AI content platform. Published healthcare AI researcher with a paper in camera-ready submission. Passionate about building real-world AI solutions that create impact.

Professional Experience

Full-Stack Intern · **Toba Tech Solutions** · Udaipur *July 2026 – November 2026*

- Working and developing the Python backend for **ContentX** product contributing to backend development and feature implementation.
- Worked on AI-based image generation features for the ContentX platform.
- Worked on an AI generation workflow, from script input to final content output.
- Collaborating with the team to improve and maintain AI content-generation workflows.

AI Research Intern (Remote) · **Tech Adaptive Pandit Pty Ltd** · Australia *January 2026 – June 2026*

- Conducted applied LLM research for clinical healthcare systems, focusing on SOAP note generation and diagnostic reasoning accuracy.
- Authored research paper "*Comparative Evaluation of LLM Models for Clinically Realistic SOAP Documentation*" — in camera-ready submission phase.
- Co-authored book chapter "*Agentic AI-Based Clinical Automation Framework for Healthcare Systems*" — under peer review (decision: May 2026).

AI/ML Intern · **Grass Solutions Pvt. Ltd** · Udaipur *June 2025 - August 2025*

- Built end-to-end ML pipelines — data ingestion, feature engineering, model training, and evaluation — across multiple business use cases.
- Applied Scikit-learn, Pandas, and NumPy for supervised/unsupervised models and explored TensorFlow/Keras neural architectures for business prediction tasks.

Projects

AgriNova — AI Agricultural Advisory Chatbot | *LLM · RAG · LangChain · Gemini API · Streamlit* GitHub

- Architected a RAG system delivering real-time crop advisory with multilingual support (Hindi, English, Punjabi) via LangChain prompt templates.
- Grounded LLM outputs in structured external knowledge bases using vector retrieval; deployed via Streamlit for zero-configuration end-user access.

Text Summarizer using NLP | *BART · Hugging Face · Flask · SpaCy* GitHub

- Built dual-mode (extractive + abstractive) summarization app using Hugging Face BART, reducing document reading time by ∼70% via a Flask.

Meeting Task Management System | *Python · NLP · Speech Processing · Streamlit* GitHub

- Converted unstructured meeting audio to structured task outputs via speech-to-text + NLP extraction; fully offline pipeline with priority-scoring and Streamlit UI.

OCR Text Extractor for Parcel & Label Images | *OpenCV · EasyOCR · Python · Streamlit* GitHub

- Engineered a barcode-first OCR pipeline with multi-stage OpenCV preprocessing and confidence-score filtering; supports batch processing via Streamlit interface.

Technical Skills

AI / ML:	Machine Learning, Deep Learning, NLP, RAG, Large Language Models (LLMs)
Frameworks:	LangChain, LangGraph, Hugging Face Transformers, Scikit-learn, TensorFlow, PyTorch
Programming:	Python, C, C++
CV & Tools:	OpenCV, EasyOCR, NumPy, Pandas, Matplotlib, Streamlit, Flask, GitHub
Core CS:	Data Structures & Algorithms, Object-Oriented Programming

Education

Geetanjali Institute of Technical Studies *2023 – 2027*

B.Tech in Computer Science — Specialization in Artificial Intelligence *CGPA: 9.0 / 10.0*

Achievements & Certifications

- **Research Paper:** "*Comparative Evaluation of LLM Models for Clinically Realistic SOAP Documentation*" - camera-ready submission phase.
- **Book Chapter:** "*Agentic AI-Based Clinical Automation Framework for Healthcare Systems*" - under peer review, major technical publisher.
- **RHCSA Training:** "*Red Hat Certified System Administrator*" training completed, certification exam pending.
- **Certifications:** AI Agent Architect & Chatbot Builder - IBM (2025); Prompt Engineering - IBM SkillsBuild/CSRBOX (2024–25); Data Science, ML, DL & NLP Bootcamp - Krish Naik (2024).
- **Volunteer:** Technical volunteer at "*The 4th State - Plasma Exhibition*", Institute of Plasma Research (IPR).
